Junior Class Moderator

Personal Statement

Enabling children to grasp the foundational knowledge and skills that they will sue for the rest of their lives is a wonderful gift. A strong relationship with God and a good education is, in my belief, the two most important things we can impart to the younger generation. It is my personal goal to not only teach the students science, but valuable life skills, while developing a strong moral code, fostering success and happiness long after their career at Shrine is over.
